

Children and Adults: Early Years

Funded settings graded as good or outstanding:

'The Annual Conversation' Offer

Annual Conversation Visit

An *'Annual Conversation'* visit will be offered to all early years providers who have a 'Good' or 'Outstanding' Ofsted grade.

The purpose of the visit is for providers to engage in a shared professional dialogue with an Early Years Support Worker. This is in order to explore and understand the setting's approach to monitoring the quality of provision, including the safeguarding and welfare requirements and its place within self-evaluation including any improvement action planning processes.

We are currently developing an Annual Conversation tool using feedback following trialling the process with two local settings.

If you have any questions relating to the Annual Conversation tool, then please contact your EYFS Support Worker who will be more than willing to speak to you.
