

Nottingham Express Transit (NET)

WHAT THEY ARE DOING

A major focus for NET Tram is the environment and how they can work with Nottingham City Council to aid achievement of the Carbon Neutral Nottingham 2028 goal.

Over the next 5 years, they have a number of initiatives they are working to accomplish, with the majority already in progress:

- Increase the use of digital technology to reduce our carbon footprint through the introduction of our NETGO mobile app product.
- Removing the automatic receipt printing function from all Ticket Vending Machines.
- Continue our pledge to using 100% green renewable energy on all trams.

ABOUT

NET have provided a world-class tram network for Greater Nottingham. Getting you from A to B as quickly, smoothly and safely as possible.
