1.0 INTRODUCTIONS & DEFINITIONS

Introduction

- 1.1** This Code of Practice shall apply to the closed circuit television surveillance schemes known as the Nottingham City Council C.C.T.V. scheme. The scheme initially comprises of cameras located in specific external and internal locations within the Nottingham City Council area, with control, monitoring and recording facilities at a dedicated location. A problem orientated process was utilised to assess the appropriateness of CCTV in the Nottingham City Council area. The cameras have therefore been sited to capture images which are relevant to the purposes for which the scheme has been established.

1.2 Ownership

The scheme is owned by Nottingham City Council who is responsible for the management, administration and security of the system. Nottingham City Council will ensure the protection of individuals and the public by complying with the Codes of Practice.

1.3 Closed Circuit Television Mission Statement

To promote public confidence by developing a safe and secure environment for the benefit of those employed, visiting or using the facilities provided by Nottingham City Council. Nottingham City Council is committed to the recommendations contained in the Information Commissioners CCTV Code of Practice which can be found on the following website www.ico.gov.uk

1.4 Codes of Practice Mission Statement

To inspire public confidence by ensuring that all public area Closed Circuit Television (CCTV) systems which are linked to the CCTV Control and Monitoring Room are operated in a manner that will secure their consistent effectiveness and preserve the civil liberty of law abiding citizens at all times.

1.5 Definitions

- 1.5.1 The CCTV control and monitoring room** shall mean the secure area of a building where CCTV is monitored and where data is retrieved, analysed and processed. It is also the location where calls may be received from 'Help Points' and from where warning can be made via public address systems, associated with the cameras.
- 1.5.2 CCTV scheme** shall mean the totality of the arrangements for closed circuit television in the locality and is not limited to the technological system, staff and operational procedures.
- 1.5.3 The retrieval system** means the capability, in any medium, of effectively capturing data that can be retrieved, viewed or processed.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 5 of 35	Authority: Brian Bussey
Date 17.06.2025	

- 1.5.4 **CCTV system** means the surveillance items comprising cameras and associated equipment for monitoring, transmission and controlling purposes, for use in a defined zone.
- 1.5.5 **The distributed system** means any subsystem, any part of which may be linked temporarily or permanently for remote monitoring within the CCTV system.
- 1.5.6 **Data** shall mean all information, including that about a person in the form of pictures, and any other associated linked or processed information.
- 1.5.7 **Personal Data** means data which relates to a living individual who can be identified:
- from that data or
 - from that data and other information which is in the possession of or is likely to come into the possession of, the data controller.
- 1.5.8 **Sensitive personal data** is personal data which is deemed to be sensitive. The most significant of these, for the purposes of this code are information about:-
- The commission or alleged commission of any offences
 - Any proceedings for any offence committed or alleged to have been committed, the disposal of such proceedings or the sentence of any court in such proceedings.
- 1.5.9 **An incident** is an activity that raises cause for concern that the safety or security of an individual or property including vehicles that may be compromised or that an offence has been, is being or is about to be, committed, or that an occurrence has taken place warranting specific action by an operator.
- 1.5.10 **The owner** is Nottingham City Council, the organisation with overall responsibility for the formulation and implementation of policies, purposes and control of the scheme.
- 1.5.11 **The manager** (Nottingham City Council) has the responsibility for the implementation of the policies, purposes and methods of control of a CCTV scheme, as defined by the owner of the scheme.
- 1.5.12 **Data controller** means a person who (either alone or jointly or in common with other persons) determines the purposes for which and the manner in which any personal data are, or are about to be processed.
- 1.5.13 **Contractor** is a party contracted by the owner to undertake the day to day operation of their CCTV system, either utilising the owner's facilities or supplying a full monitoring service.
- 1.5.14 **Operators** are employees of the Data Processor and are specifically designated to carry out the physical operation of controlling the CCTV system and the data generated. All operators are screened, trained and licensed to the standards required in the Private security Industry Act 2001.

**CODES OF PRACTICE

(BS 7958 & BS 7858) AND ISO9001**

Page: 6 of 35	Authority: Brian Bussey
Date 17.06.2025	

1.5.15 **Recording material** means any medium that has the capacity to store data and from which data can later be recalled irrespective of time.

1.5.16 **A hard copy print** is a paper copy of a live image or images, which already exist on recorded material.

1.6 System description

1.6.1 The Closed Circuit Television system referred to in this document has been introduced into Nottingham City Council area. Whilst the schemes are owned by Nottingham City Council and operated by contracted staff, its implementation and/or expansion is supported by the following bodies (the partners)

- 1 Nottinghamshire Police
- 2 Community Safety Forum
- 3 Local City Centre Management forums
- 4 Local Businesses
- 5 Local Charities
- 6 Nottingham City Homes

The owner, contractor, operators and all partners will work in accordance with the Codes. The partners will have no involvement in the operating of the system with the exception of the Police and authorised and trained personnel.

1.6.2 This Code of Practice shall apply to the closed circuit television surveillance systems known as the Nottingham City Council CCTV schemes.

1.6.3 The system consists of static and fully functional (pan, tilt and zoom) cameras and either a fibre optic or other transmission system which sends pictures to the Nottingham City Council control, monitoring and recording facility.

1.6.4 Images from all cameras are recorded simultaneously throughout 24 hour period 365 days each year.

1.6.5 There is also a dedicated CCTV transmission link to Police control rooms operating within the areas of CCTV coverage where live pictures and events can be monitored.

1.6.6 High quality cameras both fully functional with pan, tilt and zoom and static are in use.

1.6.7 The physical and intellectual rights in relation to any and all material recorded within the Nottingham City Council Control and Monitoring facility shall at all times remain in the ownership of Nottingham City Council.

2.0 CHANGES TO THE CODE OF PRACTICE

2.1 Consultation

Any major changes to this Code of Practice will take place only after consultation with the relevant management group and upon agreement of all organisations with a participatory role in the operation of the system.

2.1.1 Major changes to this code are defined as changes that affect its fundamental principles and shall be deemed to include:

- additions and omissions of cameras to the system (These can only be undertaken with the express agreement of the Home Office – at least for the first 5 years of the scheme)
- matters which have privacy implications
- additions to permitted uses criteria e.g. purposes of the scheme
- changes in the right of access to personal data, except statutory requirements
- significant legal implications.

2.1.2 Minor changes to this Code of Practice are defined as operational and procedural matters which do not affect the fundamental principles and purposes; these include:

- additions and omissions of contractors
- additional clarifications, explanations and corrections to the existing code
- additions to the code of practice in order to conform to the requirements of any statutory Acts and changes in criminal legislation

A minor change may be agreed between the manager and the owner of the system.

The Code of Practice will be subject to annual review which will include compliance with the relevant legislation and Standards.

2.2 Supplementary Documentation

The Code of Practice will be supplemented by the following document:

CCTV Operations Procedural Manual

Each document contains instructions and guidance to ensure that the objectives and principles set out in this Code of Practice are achieved. These documents will be restricted to the partners and staff members only.

3.0 OBJECTIVES OF THE CCTV SCHEME & CODE OF PRACTICE

3.1 Purpose of and Compliance with the Code of Practice

- 3.1.1 This Code of Practice is to detail the management, administration and operation of the closed circuit television (CCTV) system in the Nottingham City Council area and the associated Control and Monitoring Facility.
- 3.1.2 The Code of Practice has a dual purpose, in that it will assist owners, management and operators to understand their legal and moral obligations whilst reassuring the public about the safeguards contained within it.
- 3.1.3 The owners, CCTV Operators and users of the CCTV systems and associated safety and security equipment connected to the Control, Monitoring and Recording facility shall be required to give a formal undertaking that they will comply with this Code of Practice and act in good faith with regard to the basic principles contained within it.
- 3.1.4 The owners, CCTV Operators, users and any visitors to the Control, monitoring and recording facility will be required to sign a formal confidentiality declaration that they will treat any viewed and/or written material as being strictly confidential and that they undertake not to divulge it to any other person.

3.2 Objectives of the scheme

- 3.2.1 The following objectives have been established for the Nottingham City Council CCTV and associated systems:
 - (a) reducing the fear of crime
 - (b) deterring and preventing crime
 - (c) assisting in the maintenance of public order and reducing offences involving vandalism and nuisance
 - (d) providing high quality evidence which may assist in the detection of crime and the apprehension and prosecution of offenders
 - (e) protecting property
 - (f) providing assistance with civil claims
 - (g) providing assistance with issues relating to public safety and health
 - (h) providing assistance and reassurance to the public in emergency situations
 - (i) Assist with traffic management and crowd control

(BS 7958 & BS 7858) AND ISO9001**

Page: 9 of 35	Authority: Brian Bussey
Date 17.06.2025	

4.0 FUNDAMENTAL PRINCIPLES & POLICIES

4.1 Rights of Privacy

- 4.1.2 Nottingham City Council and partners support the individual's right to privacy and will insist that all agencies involved in the provision and use of Public surveillance CCTV systems connected to the control, monitoring and recording facility accept this fundamental principle as being paramount.

4.2 Principles of management of the scheme

- 4.2.1 Prior to the installation of cameras an 'Impact Assessment' to determine whether CCTV is justified and how it will be operated will be undertaken in compliance with the Information Commissioners CCTV Code of Practice
- 4.2.2 Cameras will be sited to ensure that they can produce images of the right quality, taking into account technical and environmental issues
- 4.2.3 To accomplish the above an 'Operational Requirement' will be completed at the time of the 'Impact Assessment' for each proposed camera to dictate the quality of images required. This is a recommendation of the information Commissioner.
- 4.2.4 If wireless transmission systems are used to control CCTV equipment, sufficient safeguards will be in place to protect them from being intercepted.
- 4.2.5 The public address is to be used in conjunction with the cameras within the High Rise Blocks to issue warnings to deter person(s) engaging in criminal activity or anti-social behaviour or to alert the public to a situation of imminent danger to assist residents as required.
- 4.2.6 The scheme will be operated fairly, within the applicable law and only for the purposes for which it is established or which are subsequently agreed in accordance with this Code of Practice.
- 4.2.7 Operators are aware of the purpose(s) for which the scheme has been established and that the CCTV equipment is only used to achieve the identified purposes.
- 4.2.8 The scheme will be operated with due regard for the privacy of the individual.
- 4.2.9 Before cameras are placed in residential areas the residents in that area will be informed/consulted concerning the proposed system.
- 4.2.10 The public interest in the operation of the scheme will be recognised by ensuring the security and integrity of operational procedures.
- 4.2.11 The system will only be operated by staff who are Security Industry Authority trained and licensed.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 10 of 35	Authority: Brian Bussey
Date 17.06.2025	

4.3 Policy of the Scheme and Signage

- 4.3.1 The scheme aims to provide surveillance of the public areas within the Nottingham City Council area in order to fulfill the stated purposes of the scheme. The area protected by CCTV will be indicated by the presence of signs. The signs will be placed so that the public are aware that they are within an area covered by surveillance equipment. The signs will state the organisation responsible for the scheme, the purposes of the scheme and a contact telephone number. Data will not be held for longer than necessary and disposal of information will be regulated.

4.4 Point of contact

Should the public wish to make contact with the owners of the scheme they may write to:

The Neighbourhood Safety Operations Manager
Nottingham Control Centre
The Woodlands Complex
Norton Street
Nottingham
NG7 3NA

The contact point will be available to members of the public during office hours. Enquirers will be provided with the relevant documentation.

4.5 Release of information to the public

Information will be released to third parties, itemized in Section 8 who can show legitimate reasons for access. They will be required to request any information with reasons in writing and identify themselves. Information will only be released if the data captures identifiable individuals or information relating to individuals and the reasons are deemed acceptable, the request and release of information complies with current legislation and on condition that the information is not used for any other purpose than that specified.

Individuals may request to view information concerning themselves held on record in accordance with the General Data Protection Regulation (GDPR) 2018. The procedure is outlined in Section 8.9 of this Code of Practice.

4.6 Release of information to statutory prosecuting bodies

The policy is to assist statutory prosecuting bodies such as the Police, and other agencies where it is deemed by the Data Controller that disclosure is to be made in compliance with the exemptions detailed in the General Data Protection Regulation (GDPR) 2018. Such agencies and prosecuting bodies may have access to information, permitted for disclosure, on application to the owner of the scheme or the manager, provided the reasons and statement of purpose, accord with the objectives of the scheme and conditions outlined in section 8.0. The information will be treated as evidential exhibits.

4.7 Annual policy review

There will be an annual policy review covering the following aspects:

- a) Whether the purpose and objectives statements remain valid
- b) Change in extent of the scheme
- c) Contracts with suppliers
- d) a review of the data protection or legal requirements
- e) maintenance schedule and performance test of the system
- f) scheme evaluation findings
- g) complaints procedure and evaluation

5.0 DATA PROTECION ACT AND OTHER LEGISLATION

5.1 Data Protection Registration

The scheme is registered with the Data Protection Commissioner. Registration Number Z5833067.

The scheme will be managed in accordance with the principles of the General Data Protection Regulation (GDPR) and the Data Protection Act 2018. The Act encompasses seven Data Protection Principles a summary of which follows:

First Data Protection Principle

“Personal Data shall be processed fairly and lawfully and with transparency and in particular, shall not be processed unless :

- a) At least one of the conditions in schedule 2 is met **and**
- b) In the case of sensitive Personal Data, at least one of the conditions in schedule 3 is also met”

The above conditions are covered in the purposes for which the scheme was installed.

The definition of Personal Data and Sensitive Personal Data can be found in Section one of these codes.

Second Data Protection Principle

“Personal Data shall be obtained only for one or more specified and lawful purposes, and shall not be further processed in any manner incompatible with that purpose or those purposes”.

Third Data Protection Principle

“Personal Data shall be adequate, relevant and not excessive in relation to the purpose or purposes for which they are processed”.

The Fourth Data Protection Principle

“Personal Data shall be accurate and, where necessary, kept up to date”.

The Fifth Protection Principle

“Personal Data processed for any purpose or purposes shall not be kept for longer than necessary for that purpose or those purposes”.

The Sixth Data Protection Principle

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 13 of 35	Authority: Brian Bussey
Date 17.06.2025	

“Personal data shall be processed in accordance with the rights of data subjects under this Act”.

The Seventh Data Protection Principle

“Appropriate technical and organisational measures shall be taken against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data”.

Accountability Principal

“Appropriate measures and records will be in place in order to demonstrate compliance and responsibility for what we do with personal data and how we comply with the other principles”.

5.2 Human Rights Act 1998

The system will be operated by or on behalf of a public authority, the authority has considered the wider human rights issues and in particular the implications of the European Convention on Human Rights, Article 8 (the right to respect for private and family life).

- 1 Everyone has the right to respect for his private and family life, his home and his correspondence.
- 2 There shall be no interference by a public authority with the exercise of this right except such as is in accordance with the law and is necessary in a democratic society in the interests of national security, public safety or the economic well-being of the country, for the prevention of disorder or crime, for the protection of health or morals, or for the protection of the rights and freedoms of others.

Therefore, to comply with Article 8 (1), and Article 8 (2) Nottingham City Council CCTV Service will always considers the following:

Proportionality - Article 4.2.1, 4.2.2, 4.2.3 and 4.2.6 of the code of practice
Legality - Article 4.2.7 and 4.2.8 of the code of practice
Accountability - Article 4.2.10 and 4.2.11 of the code of practice
Necessity/Compulsion - Article 4.2.3 of the code of practice

Any infringement by a public authority of another's rights must be justified.

If this is not the case then it will not be appropriate to use CCTV.

5.3 Criminal Procedures and Investigations Act 1996

The Criminal Procedures and Investigations Act 1996 came into effect in April 1997 and introduced a statutory framework for the disclosure to defendants of material which the prosecution would not intend to use in the prosecution of its own case (known as unused material) but disclosure of unused material under the provisions of this Act should not be

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME

Date 17.06.2025	

confused with the obligations placed on the data controller by Section 7 of the Data Protection Act 2018, (known as subject access).

5.4 Freedom of Information Act 2000

If a request for images is received via a FOIA application and the person requesting is the subject, these will be exempt from the FOIA and will be dealt with under The Data Protection Principles.

Any other requests not involving identification of individuals can be disclosed but only if it does not breach the data protection principles.

5.5 Regulation of Investigatory Powers Act 2000

Introduction

The Regulation of Investigatory Powers Act 2000 came into force on 2nd October 2000. It places a requirement on public authorities listed in Schedule 1: Part 1 of the act to authorise certain types of covert surveillance during planned investigations.

Background

General observation forms part of the duties of many law enforcement officers and other public bodies. Police officers will be on patrol at football grounds and other venues monitoring the crowd to maintain public safety and prevent disorder. Officers may also target a crime "hot spot" in order to identify and arrest offenders committing crime at that location. Trading standards or HM Customs & Excise officers might covertly observe and then visit a shop as part of their enforcement function to verify the supply or level of supply of goods or services that may be liable to a restriction or tax. Such observation may involve the use of equipment to merely reinforce normal sensory perception, such as binoculars, or the use of cameras, where this does not involve **systematic surveillance of an individual**. It forms a part of the everyday functions of law enforcement or other public bodies. This low-level activity will not usually be regulated under the provisions of the 2000 Act.

Neither do the provisions of the Act cover the normal, everyday use of **overt** CCTV surveillance systems. Members of the public are aware that such systems are in use, for their own protection, and to prevent crime. However, it had not been envisaged how much the Act would impact on specific, targeted use of public/private CCTV systems by 'relevant Public Authorities' covered in Schedule 1: Part1 of the Act, when used during their planned investigations.

The consequences of not obtaining an authorisation under this Part may be, where there is an interference by a public authority with Article 8 rights (invasion of privacy), and there is no other source of authority, that the action is unlawful by virtue of section 6 of the Human Rights Act 1998 (Right to fair trial) and the evidence obtained could be excluded in court under Section 78 Police & Criminal Evidence Act 1984.

The Act is divided into five parts. Part II is the relevant part of the act for CCTV. It creates a system of authorisations for various types of covert surveillance. The types of activity

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 15 of 35	Authority: Brian Bussey
Date 17.06.2025	

covered are "intrusive surveillance" and "directed surveillance". Both types of surveillance if part of a pre-planned operation will require authorisation from specified persons named in the Act. In addition, the reasons for such surveillance must be clearly indicated and fall within the criteria outlined by this legislation. A procedure is in place for regular reviews to be undertaken into authorisation.

All Nottingham City Council schemes will observe the criteria laid out in the legislative requirements.

Further information is available from the Home Office website:-
www.homeoffice.gov.uk/ripa/ripact.htm

5.6 Surveillance Camera Code of Practice

The Code of Practice was a requirement of the Protection of Freedoms Act 2012 and sets out guidelines for CCTV and Automatic Number Plate Recognition (ANPR) systems to ensure their use is open and proportionate and that they are able to capture quality images that give police a better chance to catch criminals and cut crime.

The code has been built upon 12 guiding principles, which provide a framework of good practice that includes existing legal obligations. Those existing obligations include the processing of personal data under the General Data Protection Regulations and the Data Protection Act 2018, a public authority's duty to adhere to the Human Rights Act 1998 and safeguards under the Regulation of Investigatory Powers Act 2000 associated with the use of directed and covert surveillance by a public authority. The use of a surveillance camera system must:

1. Always be for a specified purpose which is in pursuit of a legitimate aim and necessary to meet an identified pressing need
2. Take into account its effect on individuals and their privacy
3. Have as much transparency as possible, including a published contact point for access to information and complaints
4. Have clear responsibility and accountability for all surveillance activities including images and information collected, held and used
5. Have clear rules, policies and procedures in place and these must be communicated to all who need to comply with them
6. Have no more images and information stored than that which is strictly required
7. Restrict access to retained images and information with clear rules on who can gain access
8. Consider any approved operational, technical and competency standards relevant to a system and its purpose and work to meet and maintain those standards
9. Be subject to appropriate security measures to safeguard against unauthorised access and use

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 16 of 35	Authority: Brian Bussey
Date 17.06.2025	

10. Have effective review and audit mechanisms to ensure legal requirements, policies and standards are complied with
11. Be used in the most effective way to support public safety and law enforcement with the aim of processing images and information of evidential value, when used in pursuit of a legitimate aim
12. Be accurate and kept up to date when any information is used to support a surveillance camera system which compares against a reference database for matching purposes.

Whilst the above principles are voluntary, Local Authorities must have regard to them and Nottingham City Council will work to achieve continued compliance with the requirements. Information and a copy of the Codes can be found on www.gov.uk/government/uploads.

5.7 Crime & Courts Act 2013

The Crime and Courts Act became law on 1st October 2013 and replaced the Serious Organised Crime and Police Act 2005. CCTV Control Rooms, RVRC's and the like are under Section 7 of the Crime & Courts Act 2013 required by law to share information (CCTV images) to the National Crime Agency (NCA). If a request is received from the NCA then Nottingham City Council CCTV Control room MUST comply with the request and provide the data.

Section 7, Subsection (3) provides information obtained by the NCA in connection with the exercise of any NCA function may be used by the NCA in connection with the exercise of any other NCA function. For example, information obtained in the course of gathering criminal intelligence may be used in connection with NCA's crime reduction function.

Section 7, Subsection (4) provides that the NCA may disclose information in connection with the exercise of any NCA function if the disclosure is for any "permitted purpose" as defined within Section 16(1) of the Act. This would apply in situations where, for example, the NCA has received information on suspected criminal activity (such as a 'Suspicious Activity Report' – which help banks and financial institutions protect themselves and their reputation from criminals and help law enforcement to track down and arrest them) and has decided to share this information with an organisation or person outside the NCA (such as a financial institution) for the purpose of preventing or detecting crime.

NOTE: any information which falls within the scope of RIPA Act 2000 will still require the necessary authority prior to the release of images.

6.0 ACCOUNTABILITY

6.1 Support of Principles

Nottingham City Council and the Partners support the principle that the community at large should be satisfied that the Public surveillance CCTV systems are being used, managed and controlled in a responsible and accountable manner and that in order to meet this objective there will be independent assessment and scrutiny. It is the responsibility of all parties to maintain a continuous review of it's integrity, security, procedural efficiency, methods of operation and retention and release of data.

6.2 Hierarchy of Responsibilities

6.2.1 The Owner

The owner shall be responsible for policy, effective management and public relations of the scheme. They shall produce a written policy and be responsible for its implementation. This shall be carried out in consultation with users of the scheme and provide for the release of information relating to the operation of the system. The owner is responsible for dealing with complaints, and ensuring a fair system of staff selection and recruitment is adopted for staff employed in the control and monitoring environment. The role of owner also includes all statutory responsibilities including the role of "data controller" as prescribed by the Data Protection Act 2018 Section 1 Subsection 1(1)

6.2.2 The Manager

The manager or designated member of staff should undertake regular reviews of the documented procedures to ensure that the provisions of this Code are being complied with. These should be reported back to the owner of the scheme. To facilitate this, regular meetings will be held with the Supervisor to go through the points listed below:-

The manager is the person who has direct control of the scheme and as such he/she will have authority for the following

- Staff management
- Observance of the policy and procedural practices
- Release of data to third parties who have legal right to copies
- Control and security clearance of visitors
- Security and storage of data
- Security clearance of persons who request to view data
- Release of new and destruction of old data and tapes
- Liaison with police and other agencies
- Maintenance of the quality of recording and monitoring equipment

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 18 of 35	Authority: Brian Bussey
Date 17.06.2025	

The manager should retain responsibility for the implementation of procedures to ensure that the system operates according to the purposes for which it was installed and in accordance with the objectives identified for the system.

The manager shall also ensure that on a day-to-day basis all equipment is working correctly and that the operators of the scheme comply with the Code of Practice and Procedural Manual. Dealing with breaches of the codes and disciplinary measures shall lie with the manager.

6.2.3 The Supervisor

The supervisor has a responsibility to ensure that at all times the system is operated in accordance with the policy and all procedural instructions relating to the system, and for bringing to the immediate attention of the manager any matter affecting the operation of the system, including any breach or suspected breach of the policy, procedural instructions, security of data or confidentially. In the Managers absence the Supervisor will have responsibility for:

- Release of data to third parties who have legal right to copies
- Control and security clearance of visitors
- Security and storage of data
- Security clearance of persons who request to view data
- Release of new Media
- Liaison with police and other agencies

The supervisor should ensure that at all times operators carry out their duties in an efficient and responsible manner, in accordance with the objectives of the scheme. This will include regular checks and audit trails to ensure that the documentation systems in place are working effectively. These systems include:

- Media logs
- Media registers
- The operator's log
- The incident log
- Witness statements
- Faults and maintenance log
- The security of data
- Audit logs
- Authorisation of visitors

The supervisor should ensure operators comply with Health and Safety Regulations.

6.2.4 The Operators

The operators will be responsible for complying with the code of practice and procedural manual. They have a responsibility to respect the privacy of the individual, understand and comply with the objectives of the scheme. They are required to be proficient in the control and the use of the CCTV camera equipment,

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 19 of 35	Authority: Brian Bussey
Date 17.06.2025	

recording and playback facilities, tape erasure, and maintenance of all logs. The information recorded must be accurate, adequate and relevant to the purpose of the scheme. They should bring to the attention of the CCTV maintenance contractor immediately any equipment defect that may occur.

6.2.5 Contractor's Responsibilities

There are a number of contractors responsible for

- 1) Maintenance of CCTV equipment
- 2) Maintenance of door entry systems

The response provided by contractor's is subject of a written contract and records of responses are maintained

6.3 Accountability

The manager/supervisor shall be accountable to the owner of the scheme and will provide periodic progress reports on the scheme. The manager/supervisor will resolve technical and operational matters.

Failure of the operators to comply with the procedures and code of practice should be dealt with by the manager/supervisor. Person(s) misusing the system will be subject to disciplinary or legal proceedings in accordance with the employers policy.

6.4 Annual Assessment

An annual assessment of the scheme will be undertaken by an independent appointed person to evaluate the effectiveness of the system. This will include annual reviews of the scheme's operation, performance and working practices and, where appropriate make recommendations for improvements. The results will be assessed against the stated purposes of the scheme. If the scheme is not achieving its purpose modification and other options will be considered.

The results of the assessment will be made available through the Nottingham City Council.

The Information Commissioner's CCTV Code of Practice stipulates that the system should be reviewed annually to determine whether CCTV continues to be justified. It further states that it is necessary to establish the system's effectiveness to ensure that it is still doing what it was intended to do. If it does not achieve its purpose, it should be stopped or modified.

6.5 Audit

Regular independent random audits will check the operation of the scheme and the compliance with the code of practice. It will consider the following:

The level of attainment of objectives and procedures
Random audits of the data log and release of information
The review policy

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 20 of 35	Authority: Brian Bussey
Date 17.06.2025	

Standard costs for the release of viewing of material
The complaints procedure

6.6 Complaints

A member of the public wishing to make a complaint about the system may do so through Nottingham City Council's complaint procedure. Copies of the complaints procedure are attached to the appendices of this document.

A report on the numbers of complaints will be collated by the systems manager or designated member of staff in order to assess public reaction to, and opinion of, the use of the system. The annual report will contain details of the numbers of complaints received, the time taken to acknowledge and respond to complaints, the method of receiving and handling complaints and the degree of satisfaction in handling complaints.

6.7 Personnel

6.7.1 Security screening

All personnel employed to control/operate or manage the scheme will be security screened in accordance with British Standard 7858: *Code of practice for screening of personnel in a security environment*. In addition, they will also be subject to vetting to none police staff anti-terrorist security screening standards.

6.7.2 Training

All operators are or will be trained to the criteria required by the private Security Industry Act 2001 and licensed by the Security Industry Authority for Public Space Surveillance systems

All persons employed to act as operators of the system are trained to the highest available industry standard. Training has been completed by suitably qualified persons and has included:

- Terms of employment
- The use of all appropriate equipment
- The operation of the systems in place
- The management of recorded material including requirements for handling and storage of material needed for evidential purposes.
- All relevant legal issues including Data Protection and Human Rights
- Progression to nationally recognized qualifications
- Recognise and understanding privacy and disclosure issues
- The disciplinary policy

6.7.3 Contractor's

There are special condition's imposed upon contractor's carrying out works on the system. These are detailed in the Procedural Manual, appendix M. It should be noted

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 21 of 35	Authority: Brian Bussey
Date 17.06.2025	

that wherever possible CCTV installation and maintenance contractors should not have sight of any recorded data.

7.0 CONTROL ROOM MANAGEMENT AND OPERATION

7.1 Access to Control Room

- 7.1.1 Access to the monitoring area will be strictly controlled. Security of the Control Room shall be maintained at all times.
- 7.1.2 Only those persons with a legitimate purpose will be permitted access to the control and monitoring Room.
- 7.1.3 The Supervisor or in his/her absence the Deputy, is authorised to determine who has access to the monitoring area. This will normally be:
 - (i) Operating staff
 - (ii) The manager/Supervisor
 - (iii) Police officers requiring to view images of a particular incident, or collecting/returning tapes being considered for intelligence or evidential purposes. These visits will take place by prior appointment.
 - (iv) Engineers and cleaning staff
 - (v) Independent Inspectors appointed under this Code of Practice may visit the control room without prior appointment.
 - (vi) Organised visits by authorised persons in controlled circumstances

All visitors to the monitoring area, including Police Officers, will be required to sign a visitors log and a declaration of confidentiality.

7.2 Response to an incident

- 7.2.1 The Procedural Manual details:

- What action should be taken
 - Who should respond
 - The time scale for response
 - The times at which the observation should take place

- 7.2.2 A record of all incidents will be maintained in the incident log. Information will include anything of note that may be useful for investigative or evidential purposes.

7.3 Who makes the response and the time scale

Incidents of a criminal nature will be reported to the appropriate Police Force. The response will be made by the Police Service in accordance with their policies.

7.4 Observation and recording of incidents

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 22 of 35	Authority: Brian Bussey
Date 17.06.2025	

Recording will be throughout the 24 hour period in time lapse mode. Wherever possible the system will be monitored 24 hours a day.

In the event of an incident being identified there will be particular concentration on the scene.

7.5 A successful response

7.5.1 The criteria for measuring a successful response are:

- A good observational record of the incident
- A short time scale for response to the incident
- Identification of a suspect
- The prevention or minimisation of injury or damage
- Reduction of crime and disorder
- Improving public safety
- Restoration of tranquillity

7.6 Operation of the System by the Police

- a) There is a monitor and control facility installed at specific Police Stations. Under certain circumstances the Police may make a request to view a number of cameras to which this Code of Practice applies. Following agreement by the control room supervisor at the time, the Police communications supervisor will provide sufficient information to the operator of the genuine need for such surveillance.
- b) In the event of the police requesting use of the equipment from within the CCTV control room to monitor situations, the monitoring room will continue to be staffed and equipment operated by, only those personnel who are authorised to do so and who fall within the terms of this Code.
- c) In very extreme circumstances such as a major incident a request may be made for the Police to take total control of the system in its entirety, including the staffing of the monitoring room and personal control of all associated equipment; to the exclusion of all representatives of the system owners. A request for total exclusive control must be made in writing by a Police Officer not below the rank of Superintendent (or designated deputy).

Once the police undertake any of the above they become responsible under the Data Protection Act 2018

A telephone link through to the police station is available to effectively relay information on incidents that arise.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 23 of 35	Authority: Brian Bussey
Date 17.06.2025	

8.0 PRIVACY AND DISCLOSURES ISSUES

8.1 Privacy

Cameras should not be used to infringe the individual's rights of privacy. The cameras generally are sited where they will not be capable of viewing the internal areas of residential properties. If it is found there is a possibility that cameras would intrude in private areas, privacy zones may be programmed into the cameras where possible and CCTV operators trained to recognise privacy issues.

8.2 Disclosure Policy

8.2.1 The following principles must be adhered to:

- a) All employees will be aware of the restrictions set out in this Code of Practice in relation to access to, and disclosure of, recorded images
- b) Images not required for the purposes of the scheme will not be retained longer than necessary. However, on occasions it may be necessary to retain images for longer period, where a law enforcement body is investigating a crime to give them the opportunity to view the images as part of an active investigation
- c) The Data controller will only disclose to third parties who intend processing the data for purposes which are deemed compatible with the objectives of the CCTV scheme
- d) Monitors displaying images from areas in which individuals would have an expectation of privacy will not be viewed by anyone other than authorised employees of the user of the equipment.
- e) Recorded material will only be used for the purposes defined in the objectives and policy
- f) Access to recorded material will be in accordance with policy and procedures
- g) Information will not be disclosed for commercial purposes and entertainment purposes
- h) All access to the medium on which the images are recorded will be documented
- i) Access to recorded images will be restricted to those staff who need to have access in order to achieve the purpose(s) of using the equipment
- j) Viewing of the recorded images should take place in a restricted area

8.2.2 Before data is viewed by a third party the manager should be satisfied that data is:

- a) The subject of a complaint or dispute that is unanswered
- b) The original data and the audit trail is maintained throughout
- c) Not part of a current criminal investigation by the Police, or likely to be so
- d) Not part of a civil proceeding or likely to be so
- e) Not removed or copied without proper authority

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 24 of 35	Authority: Brian Bussey
Date 17.06.2025	

- f) The image obtained is aimed at identifying individuals or information relating to an individual.

8.3 Access to recorded images

Access to recorded images will be restricted to the manager or designated member of staff who will decide whether to allow requests for access by third parties in accordance with the disclosure policy.

8.4 Viewing recorded images

Viewing of recorded images should take place in a restricted area. Other employees should not be allowed to have access to that area when viewing is taking place

8.5 Operators

All operators are trained in their responsibilities in relation to access to privacy and disclosure issues.

8.6 Removal of medium for Viewing

The removal of medium on which images are recorded, for viewing purposes, will be documented in accordance with Data Protection principles and the procedural manual.

8.7 Access to data by third parties

8.7.1 Access to images by third parties will only be allowed in limited and prescribed circumstances. In the case of the Nottingham City Council CCTV scheme disclosure will be limited to the following:-

- a) law enforcement agencies where the images recorded would assist in a specific criminal enquiry
- b) prosecution agencies
- c) legal representatives
- d) the media, where it is assessed by the Police that the public's assistance is needed in order to assist in the identification of victim, witness or perpetrator in relation to a criminal incident. As part of that assessment the wishes of the victim of an incident should be taken into account.
- e) The people whose images have been recorded and retained (Data Subject) unless disclosure to an individual would prejudice the criminal enquiries or criminal proceedings.
- f) Where the relevant legislation allows access.
- g) Public bodies that wish to pursue civil cases

8.7.2 All requests for access or for disclosure will be recorded. If access or disclosure is denied, the reason should be documented.

8.7.3 If access to or disclosure of the images is allowed, details will be documented.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 25 of 35	Authority: Brian Bussey
Date 17.06.2025	

- 8.7.4 Recorded images should not in normal circumstances be made more widely available, for example, they should not be routinely made available to the media or placed on the internet.
- 8.7.5 If it is intended that the images will be made more widely available, that decision should be made by the manager or designated member of staff and the reason documented.
- 8.7.6 The owner should not unduly obstruct a bona fide third party investigation to verify the existence of relevant data.
- 8.7.6 The owner should not destroy data that is relevant to previous or pending search request which may become the subject of a subpoena.
- 8.7.7 The owner should decide which other agencies, if any, should have access to data and it should be viewed live or recorded but a copy should never be made or released.

8.8 Disclosure in the public interest

Requests to view personal data that do not fall within the above categories but that may be in the public interest should be considered. Examples may include public health issues, community safety or circumstances leading to the prevention or detection of crime. Material released to a third party for the purposes of crime prevention or detection, should be governed by prior written agreement with the Chief Constable.

Material may be used for bona fide training such as Police or staff training.

8.9 Data subject access disclosure

- 8.9.1 All staff involved in operating the equipment must be able to recognise a request for access to recorded images by data subjects and be aware of individual's rights under this section of the Code of Practice.
- 8.9.2 Data subjects requesting access will be provided with a standard subject access request form (Appendix 'A') and accompanied leaflet (Appendix 'B') describing the types of images recorded and retained and the purposes for recording and retention.
- 8.9.3 Subject access rights are governed by Section 7 of the General Data Protection Regulation (GDPR) 2018 and include the following provisions:
 - a) a fee is paid for each search
 - b) person gives sufficient and accurate information about a time and place
 - c) information required as to the identification of the person making the request.
 - d) the Data Controller only shows information relevant to the search
- 8.9.5 If a copy is requested, it will be necessary to ascertain whether the images obtained are aimed at learning about the Data Subjects activities. If this is not the case and there

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 26 of 35	Authority: Brian Bussey
Date 17.06.2025	

as been no captured images of identifiable individuals or information relating to individuals then this may not fall within the General Data Protection Regulation (GDPR) 2018 and access may be denied. Any refusal should be documented

- 8.9.4 If on the other hand images have been obtain and CCTV used to focus on the activities of particular people either by directing cameras at an individual's activities, looking out for particular individuals or examining recorded CCTV images to find things out about the people in them such as identifying a criminal or a witness or assessing how an employee is performing. These activities will still be covered by the DPA and reference should be made to Section 8.2.2 of these Codes of Practice prior to the release of such data.
- 8.9.5 Only data pertaining to that person is copied unless consent from all third parties is received. The subject access request will be dealt with promptly and in any case within 40 days of receipt of the request or within 40 days of receiving all the information required
- 8.9.6 All subject access requests should be dealt with by the manager or designated member of staff.
- 8.9.7 A search request should provide sufficient information to locate the data requested (e.g. within 30 minutes for a given date and place). If insufficient information is provided a data controller may refuse a request until sufficient information is provided.
- 8.9.9. Under certain circumstances (Section 29 of the General Data Protection Regulation (GDPR) 2018) the manager or designated member of staff can decide that a subject access request is not to be complied with. In such cases the refusal will be documented.

8.10 Provision of data to the individual

The owner/manager having verified the validity of a request should provide requested material to the individual. Only that personal data specific to the search request should be provided. Other individuals should be blanked off by electronic screening or manual editing on the monitor screen. As there is no on site means of editing out other personal data the material would have to be sent to an editing house for processing. The procedure outlined in Nottingham City Council's Procedural Manual will be followed.

If the individual agrees it may be possible to provide subject access by viewing only. If this is the case:

Viewing should take place in a controlled environment
Material not relevant to the request should be masked or edited out

8.11 Other rights

- 8.11.1 All staff involved in operating the equipment must be able to recognise a request from an individual to prevent processing likely to cause substantial and unwarranted damage

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 27 of 35	Authority: Brian Bussey
Date 17.06.2025	

to that individual.

8.11.2 In relation to a request to prevent processing likely to cause substantial and unwarranted damage, the manager or designated member of staff's response should indicate whether he or she will comply with the request or not.

8.11.3 The member or designated member of staff must provide a written response to the individual within 21 days of receiving the request setting out their decision on the request.

8.11.4 If the manager or designated member of staff decide that the request will not be complied with, they must set out their reasons in the response to the individual.

8.11.5 A copy of the request and response will be retained.

8.12 Media Disclosure

Disclosure of images from the CCTV system must be controlled and consistent with the purpose for which the system was established. For example, if the system is established to help prevent and detect crime it will be appropriate to disclose images to law enforcement agencies where a crime needs to be investigated, but it would not be appropriate to disclose images of identifiable individuals to the media for entertainment purposes or place them on the internet. Images can be released to the media for identification purposes; this will not generally be done by anyone other than a law enforcement agency.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 28 of 35	Authority: Brian Bussey
Date 17.06.2025	

9.0 RECORDED MATERIAL MANAGEMENT

9.1 Retention of Images

Images, which are not required for the purpose(s) for which the equipment is being used will not be retained for longer than is necessary. As mentioned previously, on occasions, images may need to be retained for longer periods as a requirement of an investigation into crime. While images are retained access to and security of the images will be controlled in accordance with the requirements of the Data Protection Act.

- 9.1.1 Recorded material should be of high quality. In order for recorded material to be admissible in evidence total integrity and continuity must be maintained at all times.
- 9.1.2 Security measures will be taken to prevent unauthorised access to, alteration, disclosure, destruction, accidental loss or destruction of recorded material.
- 9.1.3 Recorded material will not be released to organisations outside the ownership of the system other than for training purposes or under the guidelines referred to previously.
- 9.1.4 Images retained for evidential purposes will be retained in a secure place where access is controlled.

9.2 Quality and Maintenance

In order to ensure that clear images are recorded at all times the equipment for making recordings and the associated security equipment including, help points and public address systems will be maintained in good working order with regular servicing in accordance with the manufacturer's instructions. In the event of a malfunction the equipment will be repaired within specific time scales which will be scheduled within the maintenance agreement. All documentation relating to the equipment and its servicing and malfunction is retained in the control room and will be available for inspection and audit.

9.3 Digital Recordings

In a digital CCTV system, the register should show the life of the media at all stages whilst in the owner's possession. Such a register may also show itself to be useful in enabling evaluation of the CCTV scheme.

The register should include the following:

- 1) unique equipment reference number(s);
- 2) details of purchase (i.e., from whom purchased and delivery date);
- 3) time/date/person removing equipment from secure storage for use;
- 4) time/date/person returning equipment to secure storage after use;
- 5) remarks column to cover additional points (e.g., erase/destroy/handed over to law enforcement agencies/removed from recording machine);

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 29 of 35	Authority: Brian Bussey
Date 17.06.2025	

- 6) time and date of delivery to the law enforcement agencies, identifying the law enforcement agency officer concerned;
- 7) in the event of a non-automated system of erasure of data, the time/date/person responsible for erasure and/or destruction.

9.4 Making Recordings

Details of the recording procedures are given in the Procedural Manual.

Recording mediums containing original incidents should not be replayed, unless absolutely essential, to avoid any accident, damage or erasure. If recorded images need to be reviewed the reasons and details of those present will be logged and the medium returned to secure storage, if appropriate.

9.5 Video Prints

Video prints will only be made when absolutely necessary. All video prints will remain the property of the scheme owner. The taking of video prints will be recorded in a register to be retained in the control room.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 30 of 35	Authority: Brian Bussey
Date 17.06.2025	

10.0 DOCUMENTATION

10.1 Log books must be sequential in order that pages or entries cannot be removed and full and accurate records kept.

10.2 Logs

An accurate log of operator working times will be maintained.

Each operator will maintain a log of any event or occurrence including:

- a) change of operator identifying the operator on duty at that workstation and showing that:
 - that the correct time was being displayed
 - that the recording equipment appeared to be operating correctly
- b) incidents including details of time, date, location, nature, name of operator dealing and action taken
- c) routine camera patrols, whether taken manually or through the utilisation of pre-set times
- d) Privacy zones, detailing where, for any reason, it is necessary to encroach on private areas that are not part of the contractual patrol
- e) public address use

10.3 Administrative documents

The following shall be maintained:

- media tracking register
- occurrence/incident Book
- visitors register
- maintenance of equipment, whether routine or breakdown
- staff signing on and off duty
- video print log
- list of installed equipment

THE PURPOSES FOR WHICH IMAGES ARE RECORDED

Full details of the principles and criteria under which this system operates may be found in the CCTV code of Practice. The aims and key objectives of the system are:

The following purposes have been established for the Nottingham City Council CCTV and associated systems:

- (a) reducing the fear of crime
- (b) deterring and preventing crime
- (c) assisting in the maintenance of public order and reducing offences involving vandalism and nuisance
- (d) encouraging the use of the facilities offered by Nottingham City Council
- (e) providing high quality evidence which may assist in the detection of crime and the apprehension and prosecution of offenders
- (f) protecting property
- (g) providing assistance with civil claims
- (h) providing assistance with issues relating to public safety and health
- (i) providing assistance and reassurance to the public in emergency situations

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME

NOTTINGHAM CITY COUNCIL

CCTV SCHEME

CODE OF PRACTICE

Copies of the Code of Practice are available free of charge on application to the CCTV System Manager.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 34 of 35	Authority: Brian Bussey
Date 17.06.2025	

RECORDED IMAGES

The CCTV system operates 24 hours per day, every day of the year. All cameras are continuously recorded in a multiplex time lapse mode. Additional recordings may be made of individual camera pictures in either 12 hour or 3 hour (real time) mode.

All recordings are retained for a minimum of 31 days. If no legitimate requests for retention of the recording has been made it is then erased. All requests for retention of recordings are considered against the provisions of the Data Protection Act, Human Rights Act and the Code of Practice.

The storage, processing and use of the recorded data obtained by the CCTV system is guided by the following general principles.

Recorded data will only be used for the purposes defined in the Code of Practice and in accordance with the provisions of the Data Protection Act and Human Rights Act.

Access to recorded data shall only take place in the circumstances defined in the Code of Practice and the provisions of the relevant legislation.

Recorded data will not be sold or used for commercial purposes or the provision of entertainment.

The showing of recorded data to the public will only be permitted in accordance with the law in relation to the investigation, prosecution or prevention of crime.

Data released shall remain the property of Nottingham City Council.

**CODES OF PRACTICE
FOR THE NOTTINGHAM CITY COUNCIL CCTV SCHEME
(BS 7958 & BS 7858) AND ISO9001**

Page: 35 of 35	Authority: Brian Bussey
Date 17.06.2025	

DISCLOSURE POLICY

Disclosure of data obtained by the CCTV System will only be committed in accordance with the relevant legislation and the criteria contained within the Code of Practice.

In every case a written application in an approved format, clearly showing the reasons for the request is required.

The code lists third parties from who requests to view data will be regarded as 'primary requests' and sets out circumstances in which such applications may be made.

Third parties include:

The Police; Fire Service; H.M. Customs & Excise; Nottingham City Council (Specific Officers); Other statutory prosecuting bodies (e.g. Trading Standards, Ministry of Defence Police; British Transport Police; etc); solicitors; plaintiffs/defendants and persons exercising their rights of subject access under the General Data Protection Regulation (GDPR) 2018.

SUBJECT ACCESS

If you wish to exercise your rights of subject access as provided for in section 7 of the General Data Protection Regulation (GDPR) 2018 you will be required to make the request in writing on a standard subject access request form.

All requests for subject access will be dealt with by the CCTV Manager or a nominated deputy. A written response to the request will be provided within 40 days of receipt, either setting out the steps intended to take to comply with the request or setting out the reason for refusing the request.

A fee, not exceeding the prescribed maximum, may be levied.

The Data Protection Commissioner has published a Code of Practice for Users of public area CCTV Systems. A copy of this code may be obtained on application to the Data Protection Commissioner.
