ACCELERATING REDUCTION IN CARBON

GRANTS TO HELP YOUR BUSINESS REDUCE ITS CARBON FOOTPRINT

CN28
Carbon Neutral Nottingham 2028

Nottingham City Council

Nottingham City Council's Accelerating Reduction in Carbon (ARC) project will help small and medium sized businesses located in Greater Nottingham to decarbonise.

ARC gives grants to help businesses invest in measures that lead to cost and carbon savings. Businesses have already used our grant to implement projects such as LED lighting and heating upgrades, installation of energy efficient cooling systems, insulation and production of renewable energy.

We can offer eligible businesses grants of between £1,000 and £16,000 to fund 35% of the cost of installing carbon reduction measures.

To help you identify the best ways to reduce your carbon emissions and energy bills we have an expert Energy Adviser who will provide a free carbon reduction audit and advice to assist you to make the right decisions.

To find out more about how we can help your business email the ARC project team at **david.kelly@nottinghamcity.gov.uk** or call us on **0115 876 4271**
