

# Nottingham BID

## WHAT THEY ARE DOING

Nottingham BID is supporting businesses on their own journey by raising awareness about climate change, sharing information and encouraging positive actions through their web resource Green Healthy City.

After completing the Carbon Management Workshop at Nottingham Trent University (NTU), they are working with NTU's team on their own Carbon Audit.

They are offering their member organisations the opportunity to take part in an 8-hour course, created and delivered by NTU. Carbon Literacy Training is a great gateway into learning about climate change and how individuals and businesses can effect change.

## ABOUT

We Support CN28 aligns with Nottingham BID's mission to help Nottingham become a city recognised for being clean and green.

We see Nottingham as the UK lifestyle city of choice and by supporting CN28 we help drive that message.
